GHAITH MEFTEH

Full-Stack Software Engineer & Technical Director | .NET · Symfony · Angular

Nabeul, Tunisia | Remote, or relocating within the EU | +216 53 32 47 63 | ghaithmeftah@gmail.com | LinkedIn | GitHub | Portfolio

Tunisian citizen: no permit needed for remote work; needs an EU work permit for on-site roles (EU Blue Card eligible).

PROFESSIONAL SUMMARY

Full-stack software engineer with **2+ years full-time**, plus a year of part-time production work during my degree, on web and mobile products for French clients. First engineering hire at AzertyUI, now Technical Director leading a **team of 4 engineers** and reporting to the CEO; led a Symfony marketplace rebuild (search 20–50 s → 4–6 s) and now a .NET microservices platform.

PROFESSIONAL EXPERIENCE

AzertyUI **Aug 2024 – Present**

Malissard, France (Remote)

Early-stage startup building and running web and mobile products for French clients; grew from a solo engineer to a team of 4.

Technical Director **Jan 2026 – Present**

- Lead a team of 4 engineers: task planning, code review on every pull request, technical decisions and releases; report directly to the CEO.
- **Alpilink Groupe** (1-week mission, Nov 2026): shipped a wheel game for **10,000+ users** to production, load-tested with a simulator; fixed a security flaw found outside the task, on its own branch for review.
- **Company management platform** (since Aug 2026): leading the build of **.NET (ASP.NET Core) microservices** behind an API Gateway, gRPC between services, Angular 21 front end.
- **chalet-montagne.com** (Jan – Jul 2026): led the team of 4 through the rest of the Symfony rebuild to delivery: search pages from **20–50 s to 4–6 s**, ~60% less image bandwidth with on-demand WebP, and a test suite grown to **390+ PHPUnit tests** behind GitLab CI/CD.
- Built the company's server monitoring: SSH login alerts, per-developer WireGuard access, container health and backups.

Software Engineer (first engineering hire) **Aug 2024 – Dec 2025**

- **SOC Rugby** (Aug 2024 – Mar 2025): built solo and published the Chambéry rugby club's official app to the **App Store and Google Play** (Flutter, GetX, SQLite, plus an iOS home-screen widget in SwiftUI); 2,000+ fans, **99.8% crash-free** sessions (Sentry, Codemagic CI/CD).
- **chalet-montagne.com** (from Apr 2025): built the core of the rebuild solo for a French marketplace of 10,000+ ski chalets, moving the legacy data and business logic to **Symfony** while the site kept selling; SOLID, SonarQube, Docker Compose.
- Delivered the booking site, an owner back office and an admin dashboard (revenue, user blocking, secure impersonation); seasonal pricing, two-way iCal sync.

Mobile Software Engineer (Part-time, remote, alongside studies) **Jul 2023 – Aug 2024**

Hope Horizon Health & Care — Ariana, Tunisia (Remote)

- Sole mobile engineer on **SmartCare** (Flutter, Provider, GetX, Hive), a patient–doctor app with **40+ doctors and 3,000+ patients**: real-time messaging, push notifications, appointments and reminders.
- Built the **FastAPI + MongoDB** APIs, deployed on AWS with GitHub Actions; integrated Google Maps, Google Sign-In, QR scanning and medical AI models.

Software Engineering Intern (End-of-Study Project) **Feb 2024 – Jun 2024**

L-Mobile — Nabeul, Tunisia

- Developed 5 warehouse modules and a forklift tablet app on **Dynamics 365 Business Central** (C#/.NET, REST APIs).

TECHNICAL SKILLS

Languages: C#, PHP, TypeScript, JavaScript, Python, Dart, SQL

Backend: .NET / ASP.NET Core, Symfony, Doctrine, FastAPI, microservices, gRPC, API Gateway, REST APIs, WebSockets

Frontend & Mobile: Angular 21, ReactJS, HTML/CSS, Flutter, Figma

Databases: MySQL, PostgreSQL, MongoDB, query optimisation, caching

DevOps: Docker, Docker Compose, GitLab CI/CD, GitHub Actions, AWS, Linux, WireGuard

Testing & Quality: PHPUnit, PyTest, SonarQube, Sentry, code review, SOLID

EDUCATION & LANGUAGES

Engineering Degree, Applied Computer Science (EUR-ACE) — National School of Engineers of Sousse, Tunisia **Jul 2024**

Exchange program, Murang'a University of Technology, Kenya (Jul – Aug 2024) · Treasurer, IEEE IAS Student Branch, ENISo (2022–2023)

Languages: French (B2) · English (B2, TOEIC) · German (B1)
